Baseball PEI Annual General Meeting 2025

Rally Cap Program Report

Submitted by: Connor Myers, Rally Cap Coordinator

The 2026 Rally Cap season was another successful year, with 10 associations participating in the program across Prince Edward Island.

Program Overview

Coach and player development sessions were held in Mill River and Cardigan in May, providing opportunities for young players to develop fundamental baseball skills while supporting coaches with age-appropriate instruction. Additional sessions scheduled for Stratford and Kensington were unfortunately cancelled due to weather conditions.

A highlight of the season was the Mill River session, where 15U AAA players served as instructors. This provided a valuable experience for both groups, allowing Rally Cap participants to learn from older athletes while giving the 15U players an opportunity to develop their leadership and coaching skills.

Looking Ahead to 2027

To improve communication and coordination, it would be helpful for all association presidents to provide contact information for their Rally Cap Coordinator by the beginning of May. This would allow for more effective planning and scheduling of development opportunities throughout the season.

Summary

Rally Cap continues to provide a strong foundation for young baseball players across PEI, with opportunities for skill development, engagement and fun. We look forward to building on the program's success in 2027.
Thank you to Rhonda and the Baseball PEI Executive for their continued support throughout another great summer.

Respectfully submitted,

Connor Myers
Rally Cap Coordinator, Baseball PEI
