BEST PRACTICES:

1. Number of players on the field could depend on several factors. Teams may choose not to have a player in the catching position or in the outfield. Instead, extra players can be on the side lines participating in one or two skill stations while their team is on defense. Teams may also choose to have extra players on the side lines practicing pitching with a parent or coach while their team is on defense. Coaches with larger teams are encouraged to find creative ways to engage their players in additional skill practice instead of placing additional players in the outfield at this level.
2. Coaches should try to ensure that every player sits out one inning before any player sits out two innings.

CLARIFICATIONS:

3. Wild throw (defined in Softball Canada rule book 5.1.52) a throw in which the ball thrown from one fielder to another cannot be caught or controlled and remains in play. In contrast with 'overthrow' which is defined as when a ball is thrown from one fielder to another, and the ball goes beyond the boundary lines of the playing field or becomes a blocked ball (defined in Softball Canada rule book 5.1.36 and Effect in 5.11b).
4. For example: A player cannot get a homerun on a bunt. If a batter bunts a ball and an overthrow occurs at first, the batter may try to advance to second at their own risk. If there is then an overthrow at second base, the batter-runner may try to advance to third base at their own risk. If there is a subsequent overthrow at third base, the batter-runner will hold at third base.
