

## Fielder's Mask

Featuring a lightweight open design, the Champion Sports Youth Softball Fielder's Face Mask offers valuable protection without compromising the player's field of vision. The youth fielder's mask has an adjustable harness and movable chin cup to ensure a snug, customized fit. A liner keeps the mask comfortable to wear during long games, and it can be easily removed when needed between innings or catches.

There are numerous manufacturers of masks designed to protect infielders so they can enjoy playing without fear of serious injury. There are youth and adult sizes available in a fair selection of colour choices. Masks for catchers and plate umpires are of a much heavier design and are not suitable for infielders. Choose a mask designed for the position and league that you're playing in and enjoy playing the game.
